

Acoustiscreen Panels.

Unreserved creativity at your fingertips.

Acoustiscreen Polyester Acoustic wall and hanging Panels are designed to provide maximum decorative design flexibility while at the same time significantly improving the sound quality of internal spaces by minimising reverberation. The Acoustiscreen range provides both colour and acoustic control and offers the advantage of creating additional pinable wallspace. Our polyester wall panels are ideal for absorbing sound in classrooms, commercial premises and multipurpose rooms.

Outstanding quality and superb acoustic performance.

By installing Acoustiscreen Panels as either a new wall lining or by direct fixing to existing walls, the reduction in unwanted noise can be quite significant. At some frequencies, up to 95% of sound can be absorbed by utilising Acoustiscreen Panels of appropriate thickness and/or by installing the panels with an air space behind them. Acoustiscreen Panels have been tested in N.A.T.A. registered laboratories in a reverberation chamber. Low frequency absorption can be increased by installing the panels with an air gap behind them, or by increasing the thickness of the panel.

Ļ	Thickness (mm)		
Sound Absorption Coefficient		12mm	24mm
	125	0.05	0.10
	250	0.10	0.45
	500	0.40	0.80
	1000	0.70	0.95
	2000	0.90	0.95
	4000	0.95	0.90
	NRC	0.50	0.80

Acoustiscreen Panels have been tested in a reverberation chamber test to AS 1045 - 1988 "Measurement of Sound Absorption in a Reverberation Chamber" (based on ISO354).

Environmentally friendly noise control solution.

Acoustiscreen polyester wall and hanging panels are manufactured from 65% recycled polyester fibre which is non-toxic, odourless, and has low volatile content. Acoustiscreen complements the existing Sontext range of fabric-faced and perforated timber acoustic panel products, ensuring our clients have maximum choice of acoustic solutions for interior sound control.

Features & Benefits:

- Outstanding quality and excellent acoustic performance.
- and similar spaces.
- These versatile panels are easy to cut and modify.
- Modernise the look of a room with our extensive colour palette.
- Humidity and moisture resistant.
- Odourless, low-VOC content and non-toxic.
- Fire rated to Australian, European and American Standards: Group 1 AS5637, ASTM E84 Class A, EN 13501-1:2007 +A1:2009 Class B
- Lightweight (approx. 2.4kg/m2 for 12mm thick panel) and easy to install.

Available in a range of colours.
