Acoustic Solutions,
Exciting Designs

T Grid Suspended Acoustic System

Our T-Grid Acoustic Ceiling range offers you a unique design feature in your space while creating a comfortable space. We offer a range of ceiling acoustic tiles that can either be arranged in unison with one another or by simply rotating every other tile by 90 degrees which can create a completely different look.

Our standard T-Grid Acoustic Ceiling tiles are 600mm x 600mm and manufactured from PET. The 3D tiles are designed to absorb sound reverberation within the interior space and create a comfortable environment for your guests. Our acoustic ceiling tiles create the perfect visual feature in an office space, reception area, common spaces in hotels or residential areas, restaurants and many other interior spaces.
